

<b>Title: Project Manager</b>	
-------------------------------	--

### **Want to make an impact? We offer that**

Due to continued growth, we are currently hiring a Project Manager to join our team. emagine is a dynamic, fast-growing international consulting and technology company, founded on real-world experience, focused on custom-fit solutions. We have the proven people and expertise to complete complex projects, while delivering lasting knowledge-transfer benefits to empower our partners for the next challenge.

### **Are you intrigued? Do you want to learn more?**

*A snapshot of your key responsibilities as Project Manager would be:*

- Lead and manage a complex Finance system upgrade project from initiation through to successful delivery.
- Own all aspects of project planning, scoping, execution, and delivery.
- Coordinate and manage cross-functional activities throughout the project lifecycle.
- Oversee and collaborate with external vendors to ensure timely and effective delivery of project components.
- Evaluate existing business processes, anticipate needs, and implement optimized solutions aligned with business objectives.
- Liaise with internal stakeholders to scope, design, test, and review each project phase.
- Manage and control project timelines, risks, budgets, and documentation to ensure smooth execution.
- Monitor project performance and provide regular status updates to stakeholders.
- Identify and mitigate risks, manage issues, and handle change requests efficiently.
- Lead all activities related to the rollout of new technology and processes, both pre- and post-implementation.

### **Requirements:**

- Proven experience leading and managing end-to-end system upgrade projects, preferably in a Finance function.
- Strong business analysis skills, with the ability to translate business needs into technical requirements.
- Demonstrated experience coordinating internal teams and managing third-party vendors.
- Excellent stakeholder management and communication skills.
- Solid understanding of finance systems; experience with Sun Systems is highly desirable.

<b>Title: Project Manager</b>	
-------------------------------	--

- Strong organizational and documentation skills, with the ability to manage budgets, risks, and timelines effectively.
- Experience in delivering system implementations or upgrades in complex, fast-paced environments.

**So, are you ready to join our team?**

It's important to remember, emagine is an Equal Employment Opportunity Employer; we value bringing together individuals from diverse backgrounds to develop innovative solutions for our customers.

**Opportunity type:** Contract (4 months initially), Hybrid (3 days onsite), Dublin
